Issue Date: October 24, 2026 • Status: Fully Operational

Al-Brolosy Real Estate Platform Handover & Activation Notice

The Management of **Moemen Team for Software Development** hereby certifies the official handover and live production launch of the managed **Al-Brolosy Real Estate Platform** to **Al-Brolosy Real Estate Development Company**, exclusively provisioned for the domain **albrolosy.com**, configured with enterprise-grade encryption, high availability, complete administrative CRUD, dynamic multi-step lead capture, CRM behavioral analytics, and central visual media management.

☐ Master Access & Administrative Credentials

Dedicated Administrative Account — Albrolosy Company	CONFIDENTIAL / PRODUCTION CERTIFIED
Client / Organization:	**Albrolosy Company (Al-Brolosy Trading & Contracting)**
Assigned Custom Domain:	`albrolosy.com`
Public Platform Direct URL:	`https://albrolosy.com`
Admin Dashboard Login URL:	`https://albrolosy.com/login` Direct Admin Redirect
Administrative Master Email:	`admin@albrolosy.com`
Master Secure Password:	`admin123456`
Database Engine:	**MySQL 8.0 Cloud High-Performance Cluster** (Database: albrolosy-db)
Server & Framework Stack:	Laravel 11 Production Engine • Nginx Enterprise Reverse Proxy • Vite Assets
Encryption & Transport Security:	**Let's Encrypt Enterprise SSL (HTTPS 256-bit End-to-End Encryption)**

9	500	100%	24/7
Prime Master Projects	**VIP Smart Cards Ready**	**Dynamic Assets Control**	**Automated Lead Radar**
Galleries, Units & Payment Plans	Instant NFC / QR Provisioning	Live Video & Poster Customization	AI Concierge & Behavior Analytics

Essential Security & Operational Instructions:

- **Root Credentials Confidentiality:** Keep the administrative credentials above strictly confidential. They provide complete control over platform inventory, lead databases, and system configuration.
- **Sales Team Access Provisioning:** Secondary accounts for sales agents (with restricted operational scopes) can be created directly from `/admin/users` without exposing root system settings.
- **Instant Propagation:** All modifications executed via the central dashboard (new projects, pricing updates, media replacements) propagate in real-time across all visitor devices.

Cloud Administration & Feature Walkthrough — Albrolosy Company

Administrative Capabilities Guide
Managed Domain: albrolosy.com
Version 2.0 • Production Ready

☐ What Can You Manage & Control Through the Platform Dashboard?

1. Real Estate Projects, Units & Payment Plans (Real Estate Inventory Engine - Full CRUD)

Autonomous, comprehensive control over the company's entire real estate portfolio, commercial developments, and residential assets:

- **End-to-End Project Provisioning:** Create and publish projects from scratch with Arabic/English bilingual names, descriptions, branding logos, featured hero covers, multi-image high-res galleries, and precise Google Maps coordinates.
- **Unit Inventory & Live Status Toggling:** Manage actual units (apartments, villas, administrative offices, commercial clinics) and update their availability status in real-time (Available, Reserved, Sold).
- **Investment Sectors Management:** Strategically categorize developments across geographic zones (New Administrative Capital, New Cairo, North Coast) with custom sort ordering.
- **Flexible Payment Plans:** Tailor bespoke financial schedules (down payment percentages, installment tenures, quarterly payments, and cash discount incentives).

2. Dynamic AI Real Estate Concierge (Multi-Step Lead Flow & Adaptive Questionnaire)

An interactive, high-converting discovery experience designed to capture buyer criteria without friction or fatigue:

- **100% Dynamic Questions & Tabs (/admin/concierge-steps):** Modify, add, or delete questionnaire steps directly from the dashboard without writing any code.
- **Drag-and-Drop Step Reordering:** Adjust the psychological flow of inquiry steps dynamically, with one-click toggles for instant step activation or deactivation.
- **Smart Autonomous Prompting:** Intelligently engages returning or new anonymous visitors after gentle browsing time, gathering their criteria (budget range, residential vs. investment intent, preferred unit type).

3. CRM Pipeline & Behavioral Visitor Radar (Behavior Tracking & Lead Conversion)

Convert anonymous web traffic into qualified sales transactions using non-intrusive behavioral intelligence:

- **Interactive Leads Pipeline:** Streamline incoming leads automatically through distinct qualification stages (New Lead, Contacted, Highly Qualified, Negotiation, Contract Signed).
- **Interaction History & Follow-Up Notes:** Record sales call logs, client preferences, and scheduled follow-ups, with automatic agent assignment.
- **Visitor Behavioral Radar:** Track which projects attract the highest engagement, average reading duration, and conversion rates to power data-driven marketing decisions.
- **1-Click Enterprise Export (Excel / CSV):** Instantly export filtered customer spreadsheets for CRM synchronization, retargeting ads, or corporate audits.

4. VIP Smart Cards & Elite Client Privileges Management

Full administrative custody over 500 pre-provisioned digital and NFC-ready luxury identity cards for elite investors:

- **Instant Card Activation & Linking:** Pair any physical or digital card with verified client accounts via unique serial identifiers, leaving remaining cards dormant until assigned.
- **Unlinking & Reassignment:** Revoke, transfer, or reassign card privileges smoothly with a single administrative click.

Media Assets, Lead Harvesting Architecture & SLA — Albrolosy Company

Technical Specifications & Verification
Host Node: srv1888219 (IP: 2.25.99.178)
Operational Uptime: 99.9% Enterprise SLA

☐ Dynamic Media, Video & Brand Identity Control (Media & Assets Manager)

Centralized Control Over All Frontend Media Assets (/admin/assets)

Equipped with a dedicated administrative dashboard allowing instant video, poster, and brand asset replacements:

- **Main Hero Video & Posters:** Upload new cinematic video files (desktop and mobile up to 100MB) or specify high-speed CDN URLs, paired with instant fallback poster images.
- **Focused Masterpiece & Legacy Sections:** Control background videos for the featured masterpiece and company legacy sections, including founders portraits (Eng. Salah & Eng. Ghanem).
- **Brand Identity & Booking Channel:** Update the primary platform logo, browser favicon, and the unified WhatsApp booking number that powers direct reservations across all projects.
- **Real-Time In-Browser Preview & 1-Click Reset:** Integrated video and image player previewing active assets, with a safe 1-click restore to original brand defaults.

☐ Lead Capture & Data Harvesting Architecture

Guest ID Cryptographic Tracking

Generates an anonymous, encrypted session fingerprint upon first visit, quietly correlating browsing habits and favored developments without upfront friction.

Adaptive Discovery Concierge

Guides prospects through a lightweight, visual discovery journey that gathers budget and timeline criteria step-by-step, generating tailor-fit recommendations.

Autonomous Identity Merging

The moment a prospect enters their phone or submits an inquiry, the system instantly merges their entire past browsing history into their unified CRM profile.

☐ Standardized Infrastructure Endpoints & Technical Parameters

Service / Component	Standard Host / URL	Port	Encryption & Security Layer
Public Web Gateway	https://albrolosy.com	443 (HTTPS)	Let's Encrypt TLS 1.3 End-to-End Cryptography
Admin Central Portal	https://albrolosy.com/login → /admin	443 (HTTPS)	Strict Role Validation & CSRF Token Protection
Assets & Media Hub	https://albrolosy.com/admin/assets	443 (HTTPS)	Isolated Cloud Storage Symlink Engine
Database Cluster	MySQL 8.0 Engine (albrolosy-db)	3306 (Internal)	Strictly Localized & Protected from External Scans
